Nogales, Ariz., Nov. 21.—It was earned today from authoritative tources that one of the principal reaons why the conferences here between William Bayard Hale, President Wilion's proposal representative, and Gen-ral Carranzo, constitutionalist leader, roke up was the failure of Carranza to give the American government as turances that accepted rules of civi-ized warfare would be observed by inurrectos if they were allowed to imort arms and ammunition.

Although Hale declined to accept repeated invitations from Carranza's ubordinates to discuss the situation informally after the general's departure, he was said to have assured the ministers before he left for Tucson that he would meet Carranza person-ally anywhere if the constitutionalist

leader so requested.

It is said that Carranza came to the conclusion that he was making a political blunder by permitting the Mexican people to believe he would submit to American dictation if he succeeded in defeating Huerta. This was said to have led to the story of the demand for Hale's credentials. Rumors are heard here of a disagreement between Carranza and General Villa, which threatens to disrupt rum.

NEGOTIATE WITH MEXICANS Mexico City, Nov. 21 .- The fact that Nelson O'Shaughnessy, American charge d'affaires, has had two confer-ences with the Mexican minister of foreign affairs during the past few days, became known here today. The exact character of these meetings and the nature of the conversation are not known, but it is evident that their net result did not change the situation.

Assurances were given at the embassy today that no instructions had been received from Washington for Charge O'Shaughnessy to leave his post. It is known that his personal affairs are in such order that he could leave at an hour's notice if the necessity arose.

Commenting on the situation in an editorial article today El Pais says: "Does President Woodrow Wilson not know or does he not care to know that in history and before the civilized world he will be obliged to answer the charges which humanity will make against Francisco Villa?"

The article then recapitulates crimes of murder and pillage attributed to Villa, the rebel leader, at Torreon and Juarez, alleging that if the revolution triumphs Villa will become vice-president, minister of war or some other functionary by virtue of the valuable services he has rendered to Venustiano Carranza, the constitutionalist leader.

"This President Wilson should know and does know for a certainty, yet. wishing to justify his unwarranted and absurd meddling in our affairs, he committed at Torreon, Juarez, and

The Imparcial publishes today the statement that the adherents of Carranza in the vicinity of Juarez shot two American army officers. This news is alleged to have been conveyed to the federal capital by private mes-sages which declare that President Wilson is horrifled by the infamous executions carried out by Villa which have inclined him to give to the Mexican question "the solution demanded by justice and common sense—that is to say, the recognition of the consti-tuted government whose chief is the il-
